

HSM Powerline SP 5088 - 3.9 x 40 mm

HSM Powerline SP 5088 shredder baler combination

With this waste disposal station, HSM combines the FA 500.3 heavy duty document shredder with a channel baling press. It is therefore perfect for use in archives or central stations for shredding large quantities of documents, which are then compressed into bales of up to 90 kg.

Product information

The high quality materials and proven HSM "Made in Germany" quality guarantee you are receiving a safe and durable machine.

The induction-hardened, solid steel cutting rollers can easily cope with staples and paper clips and guarantee durability.

The powerful motor ensures a high cutting capacity and reliable continuous operation.

The automatic return eliminates paper jams and ensures a smooth operation.
