Bale length x Bale width x Bale height:	800 x 600 x 800 mm	Press material:	Plastic film
Bale weight:	40 kg		
Width x Depth x Height:	810 x 735 x 1280 mm		

Product information

The HSM V-Press 60 compresses plastic foils, plastic and paper bags as well as lightweight boxes and packing paper

The lever action allows the HSM V-Press 60 to produce well-compressed, stackable bales

Does not need any electricity, servicing or maintenance

User-friendly

The HSM V-Press 60 is effortless to operate with a minimum amount of strength.

Mobile

Move the HSM V-Press 60 to where the waste is produced. It fits through every door and in every lift!

Compact bales

The bales of approx. 40 kg can be stacked and are easy to transport.

Workplace kept clean

Used packing material is fed into the HSM V-Press 60 immediately after unpacking and does not need to be transported to interim storage.

Precompactor for hydraulic baling presses

The bales produced can be re-pressed in hydraulic HSM baling presses, i.e. compressed into denser and larger bales.

Environmentally-friendly

Better truck loading with HSM bales, and fewer trips by truck as a result.
