

HSM V-Press 60

The mobile baling press HSM V-Press 60 compresses plastic film and lightweight packaging material right where the material is.

Technical data

Order number:	6201111	Maximum bale weight:	40 kg
Bale size (WxHxL):	600 x 800 x 800 mm	Loading aperture (WxH):	740 x - mm
Number of strappings:	3	Type of consumables:	strapping twine
Dimensions of machine (WxDxH):	810 x 735 x 1280 mm	Machine weight:	95 kg

Product Information:

The bales of approx. 40 kg can be stacked and are easy to transport

The HSM V-Press 60 compresses plastic foils, plastic and paper bags as well as lightweight boxes and packing paper

Effortless to operate with a minimum amount of strength

Does not need any electricity, servicing or maintenance

Move the HSM V-Press 60 to where the waste is produced. It fi ts through every door and in every lift

The used packing material is fed into the HSM V-Press 60 immediately after unpacking and does not need to be transported to interim storage

Bales produced can be re-pressed in hydraulic HSM baling presses i.e. compressed into denser and larger bales.

Better truck loading with HSM bales, and fewer trips by truck as a result

The lever action allows the HSM V-Press 60 to produce well-compressed, stackable bales
