

HSM V-Press 860 P

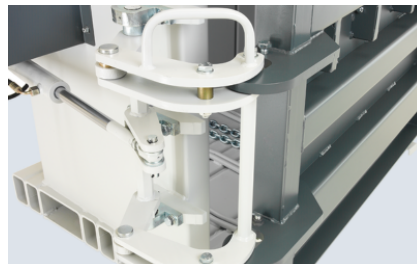

Technical data

Order number:	6048714	Pressing power:	434 kN
Maximum bale weight:	230 kg	Width x Depth x Height:	1870 x 1273 x 2985 mm
Loading aperture (WxH):	1195 x 650 mm		

Product Information:

The powerful system is designed as Plug&Press and can be put into operation immediately at the installation site

Reinforced press chamber and hydraulic door lock - Convenient opening and closing, no manual effort required

Automatic start of the pressing process after closing the door

Convenient membrane keypad with text display, which shows the current status of the machine

The HSM V-Presses are highly energy efficient thanks to the rapid stroke technology. This saves time and money

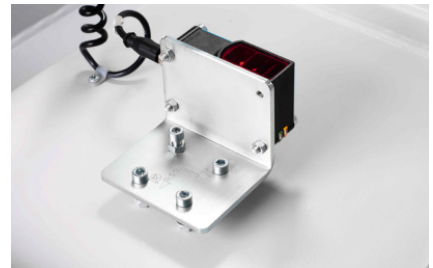

Robust mechanical bale ejector chain

Massive press ram and extremely robust press plate guidance

Double quantity of retaining claws optimize the compression of the pressing material and reduce the number of loading actions

HSM TCS (Torsion Control System) for monitoring press ram movement

Manual bale strapping with wire
