

HSM ProfiPack C400

With this cardboard perforator, you transform used cardboard into packaging material in one work step. Can be used as a mobile and flexible tabletop device.

Technical data

Order number:	1528134	EAN:	4026631062695
Throughput capacity:	50 kg/h	Noise level (idle operation):	ca. 68 - 70 dB(A)
Voltage / Frequency:	220-240 V / 50 Hz	Intake width:	415 mm
Infeed height:	10 mm	Power consumption:	625 W
Width x Depth x Height:	610 x 395 x 375 mm	Machine weight:	46.65 kg

Product Information:

Depending on the application, the cushioning volume of the packaging material can be adjusted as required.

The packaging material can be used wherever required and provides an optimum protection for objects.

The intuitive operator control panel with LED indicators on a robust keypad signals the operating status of the device.

The efficient drive concept ensures a powerful operation at constant load.

The device can be lifted up and transported easily via the side recessed handles.

Sturdy feet ensure the packaging machine will not slip.

The infinitely variable adjustment of the working width with a scale allows the production of cushioning material exactly as required.

The integrated turbo-function resolves blockages by making more power available for a short time.

The induction-hardened solid steel cutting rollers are wear-resistant against cardboard staples and guarantee durability.
